

Bundu Star has a new home.

We are proud to announce that Bundu Star is now brightening the skies at Origin Wine.

Bundu Star is currently one of the top selling brands in Sweden and we are working hard to build our brand in Germany and Poland too.

African legend has it that the Bundu Star was only bestowed upon a true leader and champion warrior. It also has to be said that the true “stars” of the African bush (known locally as the “bundu”) are the wild animals

that roam the plains of Africa.

Bundu Star wines create a connection between our customers and South Africa by bringing a little bit of the wild African magic into their glass.

At Bundu Star we combine age-old farming traditions with the skill and art of modern winemaking to craft a product that both excites and over-delivers on quality.

South Africa is the oldest producer of “new world” wines, boasting over 350 years worth of winemaking history.

Bundu Star enjoys a FairTrade accreditation.
